

# WHAT IS THE BRITISH PEOPLE'S PARTY?

The British People's Party grew from an alliance of various White Nationalists groups over the past two years leading up to its foundation in October 2005. Many of us are founder members of the BNP and followed and supported John Tyndall from its formation in 1982 and in his efforts to take back that Party from those who are now seeking-out and compromising the founding principles we based it on.

John Tyndall is now tragically dead, but we in the BPP are determined to carry on his great work. The BNP is now a Populist Party which has now strayed light years away from the ideals of White Nationalism. The BPP is here, now, to offer patriotic White Nationalists throughout the United Kingdom a real radical alternative in the form of tactics, strategy and policies to those who have corrupted and distorted the Movement.

**WHITE NATIONALISM** is now the **ONLY** answer to Britain's ills and needs. Drastic times call for radical solutions, not half-baked ideas. **WE** in the BPP are providing them. As a member of the BPP you are a bearer of the banner of **White Nationalism** - if you love your Race and your Nation - your duty is clear - you **MUST** do everything you can to build our Movement!

The British People's Party is **NOT** a Movement that is prepared to consider compromise, we are pledge to stand by our principles and we will stand fast to the Fourteen Words:

## We Must Secure The Existence Of Our People And A Future For White Children

This phrase sums up all we are fighting for - the very existence of the White people of Britain, their heritage, identity and culture.

The British People's Party promotes the following aims and objectives:-

- 1. To build an organisation which is dedicated to the promotion of White Nationalism***
- 2. To attract, educate and mobilise all Britons of all backgrounds into an unstoppable Movement which will overthrow by legal means the Old System***
- 3. To work towards the unification of all true White Nationalist individuals and groups***
- 4. To fight for the victory of the "Fourteen Words"***

Above, in a brief statement, are our immediate aims. As an ordinary party member how can you help? Whatever age you are or whatever social background then you have, as a member of the BPP, a role to play within the British People's Party. Here are some suggestions:

- *Build the BPP NOW! Our subscription is just £15 a year and you should easily be able to recruit more members from your friends and workmates.*
- *If you are a member of an existing organisation, encourage other members to take out BPP membership too, thus drawing more and more into the drive for White Nationalist unity.*
- *If you wish to start up a local unit of the BPP in your area, contact the BPP Commissioner on **07906285978** and discuss with him the various ideas you have for developing the BPP in your part of Britain.*
- *Order our monthly magazine "VANGUARD" and distribute our papers as a vehicle for building the backlash against those who are out to destroy our Race and Nation.*
- *Order some of our stickers, posters and leaflets and get them circulated in your area.*
- *Write to your local press or bring media attention to the growth and development of the British People's Party.*
- *Donate whatever you can afford - from 1p to £1000 - to keep the Movement running. Our key workers are unpaid and work many hours for nothing to further the cause of White Nationalism.*
- *Send us in your articles, news-clippings, letters, ideas and opinions. The BPP takes pride in the fact that it is an organisation driven by the initiative of its members and not by lofty directives from some uncaring leadership.*

## Above all - get active and DO something - time is running out!
